Questions and Answers

Q. In the preface of the RFP there was significant discussion regarding the agency's transition away from public housing. The RFP's scope of work does not directly call out assessment of the current housing portfolio or planning for the future repositioning of the portfolio. Can you please elaborate on the scope of work related to repositioning your agency's housing portfolio?

A. The scope of work under this solicitation does **not** include any work related to the assessment of or repositioning the Public Housing portfolio or any planning for future repositioning. The repositioning of the Real Estate portfolio has been completed and is detailed in our Vision 2030 Plan which can be found on the agency website. The focus of this solicitation is a strategic planning process that will assist Columbia Housing in redefining its role as it exits the Public Housing Program and prepares for its future post-Public Housing.
